24 January 1952

[REDACTED] A
[REDACTED] C
at 0930. General conversations on [REDACTED] interests in Artichoke matters resulted. [REDACTED] mentioned that [REDACTED] a new idea for quick screening. Combining the Pinkerton card method with a simple polygraph technique (with snuealer arrangement) offers rapid screening possibilities. Idea discounted by [REDACTED] but believed to have merit by the rest. [REDACTED] will see [REDACTED] people on his way back to [REDACTED] to discuss it. [REDACTED] also suggested that the whole Artichoke problem be given to special groups to study and recommend.

2. [REDACTED] Resirnees at 2:00 p.m. A
Discussed future management of Artichoke in [REDACTED] Agreed H
that matter should be given to [REDACTED] study
and recommend.

25 January 1952
